SAVE THE DATE!!

Please join OCRID in welcoming honored
guest, JANET L. BAILEY!

**"Who are We & How Do We Cope
in the New Interpreting World?"**

Participants in this workshop will join with colleagues to take a close up look at the current status of the interpreting field and the challenges and opportunities that lie ahead of us, what can we do today to affect positive change on the business of interpreting, and how can we work together for the benefit of the whole?

The group will participate in an open, honest, and moderated dialogue on the issues that face us as interpreters in 2011. The day will include information sharing, small and large group discussions and a moderated discussion on where we go from here.

Janet is RID's first Government Affairs Representative and has over 30 years of experience as an interpreter. In 1982, Janet became co-founder, President and CEO of the first interpreting business, Sign Language Associates, Inc. (SLA). Ms. Bailey served two terms as President of RID (1991-1995). Janet represents the best practices of the field as an interpreter, speaker and instructor.
